

**A**  
**PRACTICAL ASSIGNMENT**  
**OF**  
**“M.C.A. 207 - Programming in JAVA”**

Submitted in partial fulfillment of the requirements for the

**Master of Computer Application**  
**M.C.A. -II semester**

From

**PT. RAVISHANKAR SHUKLA UNIVERSITY SCHOOL OF  
STUDIES, RAIPUR(C.G)**

Year: 2023-24

**Guided By:-**

**Mr. Rahul Singh**  
(Assistant Professor, C.S.&IT, PRSU)

**Submitted by :-**

**Alisha Khan**  
Roll no : 2310174004

Submitted to

( S. O. S. IN COMPUTER SCIENCE & IT, RAIPUR )  
**Pt.Ravishankar Shukla University Raipur (C.G.)**

## DECLARATION

This is to certify that the **Lab Assignment Report** which is submitted by me in the partial fulfilment for the completion of the Master of Computer Application, Semester II at School of Studies in Computer Science and I.T., Pt. Ravishankar Shukla University, Raipur, comprises the original work carried out by me.

Date:

Name :- Alisha Khan  
Class :- MCA-2<sup>nd</sup> Sem  
Roll no :- 2310174004

## **Acknowledgement**

This is to certify that the **Lab Assignment Report** which is submitted by me in the partial fulfilment for the completion of the Master of Computer Application, Semester II at School of Studies in Computer Science and I.T., Pt. Ravishankar Shukla University, Raipur, comprises the original work carried out by me.

Date :-

Name : Alisha Khan

Class : MCA-2<sup>nd</sup> Sem

Roll no. :- 2310174004

## **CERTIFICATE OF EVALUATION**

This is to certify that the Lab Assignment for the course code MCA207 (Programming In Java) is carried out by Alisha Khan, student of MCA-II semester at School of Studies in Computer Science and I.T., Pt. Ravishankar Shukla University, Raipur after proper evaluation and examination, is hereby approved as a credible work in the discipline of Computer Applications and is done in a satisfactory manner for its acceptance as a requisite for the completion of Master of Computer Application, Semester II during the year 2023-24 from Pt. Ravishankar Shukla University, Raipur (CG).

# INDEX

S.NO.	Program name	Page	Remarks
1.	WASP for creation and casting of variables.	1	
2.	WASP for demonstrate the various operators.	3	
3.	WASP for printing the current data in different formats.	6	
4.	WASP for inputting data from keyword through Scanner class.	8	
5.	WASP for inputting data from keyword through BufferedReader class.	10	
6.	WASP for inputting data from keyword through Console class.	11	
7.	WASP to demonstrate the use of for-each loop.	13	
8.	WASP to demonstrate ragged arrays.	14	
9.	WASP to demonstrate anonymous arrays.	15	
10.	WASP to demonstrate the method of array class.	17	
11.	WASP for application of class and object.	18	
12.	WASP to demonstrate method overloading.	20	
13.	WASP to demonstrate constructor overloading.	22	
14.	WASP using single inheritance.	24	
15.	WASP using super and this keyword.	25	
16.	WASP to demonstrate multilevel inheritance.	27	
17.	WASP to demonstrate method overriding.	29	
18.	WASP using multiple inheritance concept through interfaces.	31	
19.	WASP to demonstrate the concept of inner class.	33	
20.	WASP to demonstrate the concept of local class.	34	
21.	WASP that creates its own package containing two classes.	35	
22.	WASP using try and catch statement.	37	
23.	WASP using multiple catch statements.	39	
24.	WASP to demonstrate the multicatch feature.	41	
25.	WASP to demonstrate the use of finally block.	42	
26.	WASP using nested try statements.	43	
27.	WASP to create your own exception class and display corresponding error message.	45	
28.	WASP for creating and exception threads by extending the thread class.	47	
29.	WASP to run three threads by implementing the runnable interface.	48	
30.	WASP to demonstrate the use of join() method.	50	
31.	WASP to demonstrate multithreading using wait() and notify().	52	
32.	WASP to demonstrate the string class & its methods.	55	
33.	WASP to demonstrate StringBuffer class and its methods.	57	
34.	WASP to demonstrate various wrapper classes.	59	
35.	WASP to demonstrate HashSet class and its methods.	61	
36.	WASP to demonstrate ArrayList class & its methods.	63	
37.	WASP to copy a file.	65	
38.	WASP to count the number of characters in a file.	67	
39.	WASP to demonstrate object serialization.	69	
40.	WASP to demonstrate keyword event.	72	
41.	WASP to demonstrate mouse event.	74	

42.	WAP to establish connection to the database.	76	
43.	WAP to create a table named employee with fields as emp_id, emp_name, age, dept.	77	
44.	WAP to create a table and drop it.	79	
45.	WAP to insert multiple rows in a table using prepared statement.	81	
46.	WAP to display contents of a table on the console.	83	
47.	WAP to update rows using result set.	85	
48.	WAP to describe the functions of metadata objects.(resultset & database)	87	
49.	WAP to demonstrate the HashMap class.	89	
50.	WAP to demonstrate the vector class.	91	
51.	WAP to demonstrate the LinkedList class.	93	
52.	WAP to demonstrate the JTextField class.	95	
53.	WAP to demonstrate the JButton class.	97	
54.	WAP to demonstrate the JToggleButton class.	99	
55.	WAP to demonstrate the JCheckbox class.	101	
56.	WAP to demonstrate the JRadioButtun class.	103	
57.	WAP to demonstrate the JComboBox class.	105	
58.	WAP to demonstrate the Jlist class.	107 - 108
